

PREP SKIN 8 oz

Potentiating toner

Its cofactors and minerals potentiate active ingredients applied over it

Witch hazel extract (5%): Purifying, decongestant and healing. In high concentrations, witch hazel is recommended to treat cracked skin or damaged by the sun, cold or wind.

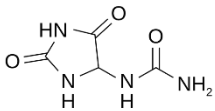

Aloe vera : a complete plant which has tensing effect, widely known for its benefits on the skin

Chamomile extract: Matricaria chamomile is known for its calming, hydrating, soothing and softening properties.

Provitamin B5: In high concentration, it is used for the treatment of sunburns, light burns, small lesions and other minor skin disorders. It improves hydration, reduces itching and inflammation of the skin, improves elasticity and accelerates skin healing.

Allantoin: high-end active ingredient that promotes reconstruction of porous tissue and accelerates exfoliation, eliminating corneocytes and improving the skin's ability to retain water to maintain good hydration. Its soothing properties regulate the inflammation process and relieve feelings of overheating. Allantoin is particularly rich in vitamin A.

Concentrated extract of borage leaves and flowers: Known to delay aging signs of the skin and promote cell regeneration and healing. Borage incorporated in our toner gives it an astringent, anti-inflammatory and healing power.
