HIGH-END SKINCARE

PROVIDER

CONSILIUM 7 HIGH TECH FACIAL

What is the Consilium 7 facial?

Our 7 in 1 high tech facial combines the 7 latest technologies with an ionizing skincare line and expert massage techniques. This facial is adapted to skin types and conditions according to our 75-minute-long protocols.

BEFORE

minutes AFTER this 75 min facial

How often do we perform the facial?

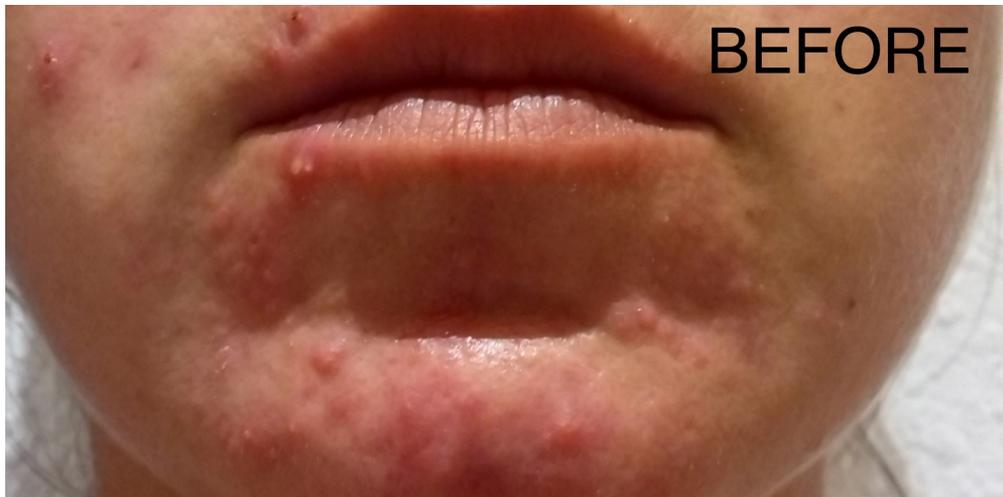

Skin total regeneration occurs every 21 to 25 days, we recommend this facial once a month to allow skin to be fully regenerated. A facial a month is also easier to fit your client's agenda.

Results are impressive, are they immediate and do they last?

Results can be observed after the first facial and right away. Results will keep getting better over the course of skin regeneration, so they will look even better 3 weeks after the facial. It is important to repeat this facial once a month to keep results going. But it is more so important to use our skincare line at home.

How is your skincare line different from others and why should clients use yours?

Our skincare line is packed with exclusive ingredients such as botox-alternative, oxygen, anti-aging peptides, caviar, antioxidants combined with natural plant extracts. During the facial they are infused into the skin with the use of technologies and when they are used at home, skin cell memory recognizes the ingredients and activates its regeneration.

Can this facial treat acne?

Absolutely, we have a specific protocol that our team develop to treat acne over the course of a few monthly facials.

We have 4 protocols that efficiently work on anti-aging, anti-redness, anti-acne and anti-dullness to give the best glow on perfect skin.

For special conditions or skin types you are unsure of, you take photos of your client's skin and send it to us. We'll get back to you with the appropriate protocol when you need it.

What products do we need to perform such an amazing facial?

Our products are specifically designed for the use of high technologies of our device. That is to say, they were formulated with the appropriate viscosity so that the handles technologies of our device will be conveyed into the skin with the active ingredients and ions.

We cannot and will not guarantee the use of our products will work with other devices as we are unaware of their frequencies, efficiencies and grades. Vice-versa, using other types of products may damage the handles of the device with a mirror-effect caused by inappropriate skincare products.

You are committed to acquire a revolutionary system.

Our skincare line is made of 10 products which shortens your sales time and makes it more profitable. Rather than having hundreds of references and be left in the unknown, you will have access to our quick and easy sales techniques depending on your client's skin problematic to know exactly what needs to be recommended.

1. PURE SKIN – anti-aging deep-cleansing foaming gel 8 oz.
2. PREP SKIN – potentializing face toner 8 oz.

MODOLOGIE is the story of a father who is a French plastic surgeon, a mother who is an aesthetician and their French American daughter, an MBA graduate in international business from Florida International University.

MODOLOGIE, through its expertise in aesthetics and the medical field, offers a unique creation of treatments that combine high technology and kneading expertise with an innovative skincare line specially designed for the use of high technologies.

Dr. Pigassou – French plastic surgeon

Marseille Hospitals' former resident, Dr. Bernard PIGASSOU is an MD graduate from the Montpellier School of Medicine since 1986. He practiced plastic surgery (rhinoplasty, otoplasty...) for many years

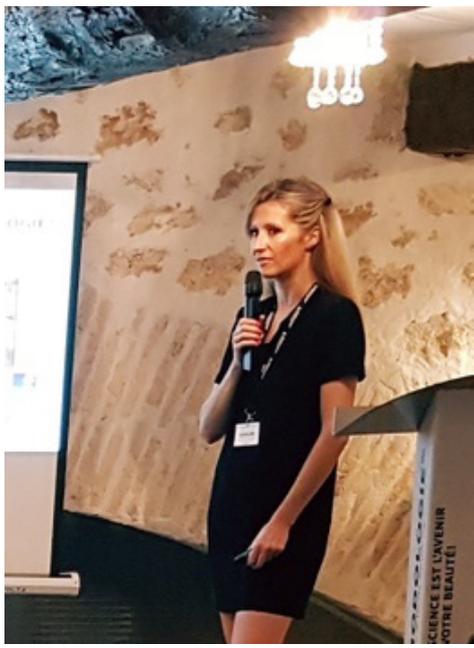

Martine Pigassou - Jury for the Aesthetician state license examination and Master for the Aesthetic Apprenticeship program of the Montpellier Rectorate

An aesthetician graduate since 1978 from the Bordeaux academic division, Martine also has a graduate degree from the Montpellier School of Medicine on aging. A true anti-aging specialist with more than 38 years of experience, she is also

a jury for the Aesthetician state license examination.

Caroline Pigassou – Aesthetics Sales & Marketing

With a bachelor's degree in Marketing and an MBA in International Business from the United States, Caroline is also a licensed Aesthetician from the Montpellier academic division. After working for the world's leading skincare companies for many years in the United States, sales techniques for beauty salon clients have no secrets for her.

TRAINING

Did you know that clients are willing to pay more and drive further for treatments with highly trained professionals?

According to a study performed amongst beauty salon clients by the National French Institute of Statistics in 2016, 67% of them will favor a highly trained skincare professional over location and price. They may speak French but they are beauty clients like in the rest of the worlds, that is way more than half of your client base that will have a different outlook on you after you receiving training by our staff members.

Training can be performed for traditional facials without the Consilium 7 device using our products and retail them.

Training last 1 to 2 days depending on level and your availability.

Training for the high tech Consilium 7 facial with products for retail last 2 to 3 days depending on level and your availability.

We have monthly training dates available and we ask that you book in advance as spots fill up fast.

No training will be performed without prior full payment remittance.
